

## LET US FILM YOUR NEXT GAME!

### **What we do...**

We will film your next game using an HD camera mounted on a 30ft tripod. Filming at this height allows us to capture full game footage like it is seen on TV.

### **What you will receive...**

Complete unedited MP4 file of your entire game. You have the ability to share, copy, post, and edit your video as you like.

We will mail your MP4 file on a single thumb drive for you to keep 3-5 business days after your game.
